«Old legends ascribe to Rebis a double being:
Androgynous male and female in one body.
He was generated on Mount Hermaphroditus».

“ REBIS ”

"Rebis" (The Double Thing) is a term that refers to the mystery of duplicity that governs the world: in it coexist, in perfect harmony and balance, the two opposites, male and female. Rebis Gin is an alchemical marriage of unique elements of sublime quality that combines tradition and novelty, marries ingredients with a strong Sicilian identity Sicilian with an innovative distillate. Only he who is able to bring opposites together will be able to master the passions and achieve perfection.

PALERMOHENGÉ

Porta Felice... crossed the threshold, at dawn on July 15, in the good land of a Palermo bathed by the sea and crossed by the Kemonia, a road leads us into a path that, seen in perspective, seems to lead to infinity. The its origins are ancient: the solar disk, which has just left the blue sea, stands at the center of the two towers, representing a balance between the dual that has always commanded the world of matter. Rebis Gin is a journey that allows entry within a path dedicated only to the initiated.

SYMBOLOLOGY

The label of Rebis Gin is the map that conceals alchemical symbols of a Palermo with a mysterious face and pregnant with treasures. Map of an esoteric path that traces the way to a coveted destination that is never just a geographical place, it is something more: it is an aspiration, a dream, an ideal. In the foreground we glimpse the unmistakable dawn of **Porta Felice** from which the endless line of the Càssaro stretches out. We recognize the alchemical symbols of the four elements: **Earth, Water, Air and Fire**, from the union of which springs a fifth, namely Spirit or Quintessence. On either side are the mythological figures of the **Peacock** and the **Leopard**, surrounded by peculiar floral figures, harking back to the mosaic decorations of King Roger's royal hall in the **Palazzo dei Normanni**. Finer observers will spot the "dot" within the sun, a **symbol of gold**, divine light, intellectual illumination and body heat.

BOTANICALS

WATER

The botanical elements of Rebis Gin are eight, a sacred number that recalls the idea of eternity. **Juniper** is the predominant element: assertive and firm on the palate; **orange blossom** and **prickly pear blossom** combine in a floral engagement; **lemon and orange peel** provide the citrusy fragrance with a Sicilian identity; **capers** give a briny note; finally, **wild fennel** and **olive leaves** for a spicy, velvety combination. Botanicals are selected with extreme care and hand-picked throughout Sicily. The study, research and attention to the quality of these elements give the recipe a harmonious and balanced flavor. A Gin that satisfies different palates, to be drunk on its own but suitable for any pairing.

The glass is 100 percent recycled and recyclable; in fact, it shows imperfections and ever-changing shades of color.

REBIS – AN IN-PROGRESS PROJECT

«Travel is a continuous reinventing of our senses in front of new landscapes and faces».

Every journey has a starting point, and the destination is not always a geographical place. Certainly the journey has a path, inner and outer, that inevitably transforms and enriches the one who undertakes it.

Rebis Gin is a project, a journey for initiates that has its beginning in Porta Felice and its destination in an ideal place.

It is a path that enriches and reinvents itself in order to be able in the future to lead its users inside a garden in which it will be possible to awaken all five senses. A "place" yet to be discovered and experienced where one can meet each other and themselves.

Unveil the new label... a wait for passionate travelers and connoisseurs.
